

## Objective

To obtain a challenging career where I can continue to grow with my experience in LAMP and/or other technologies.

### Akira Creative Group Inc. [ Valencia, CA ]

**POSITION:** Designer/Programmer

**DATES:** 12/2006 to Current

- ▶ Developed over 30 websites utilizing the latest in LAMP, AJAX, Web 2.0, SSL, RSS and XML.
- ▶ Implemented proven SEO methods using alt & title tags, proper Meta tags, full CSS, htaccess rewrite, sitemaps, and inbound links.
- ▶ Developed custom PHP/MySQL applications for both front and backend web site management.
- ▶ Integrated themes as well as custom programming into many pre-programmed packages such as Coppermine, Joomla, OScommerce, SMF Board, WordPress, X-Cart and many more.
- ▶ Set-up, networked, and managed dedicated servers on Linux and Windows Hosting Environments.

### Advanced Business Solutions Zone Inc. [ Burbank, CA ]

**POSITION:** Designer/Programmer

**DATES:** 6/2001 to 11/2006 (Company Closed)

- ▶ Worked closely with marketing companies to develop site applications that integrated ODBC w/ MS Access DB's.
- ▶ Created custom CMS systems which allowed Excel database uploads/downloads to SYNC with website content.
- ▶ Managed local hosting servers running on Windows and Linux.
- ▶ Provided on-site networking, system setups, printer + drive mapping, PBX (Phone Box System) setup, and VOIP setup.
- ▶ Call center support for computer and website issues.

### Adam Luz Inc. [ Santa Clarita, CA ]

**POSITION:** Self Employed

**DATES:** 01/1998 to 02/2010

- ▶ Created basic HTML websites & logos.
- ▶ Onsite technical support for computer issues relating to virus, spyware, networking, mapping, hacking, and other issues.
- ▶ Setup business networks with Novell and Windows to allow shared drives, printers, and network user logins w/ profile support and secure environments.
- ▶ Setup business proxy's to prevent workers from surfing unauthorized sites.
